### PROFESSIONAL SUMMARY

As an accomplished React Developer, I bring a dynamic and versatile skill set to the table, with a proven track record of creating user-friendly web applications. With progressive experience within the technology industry, I possess a demonstrated ability to stay up-to-date with the latest techniques while also leveraging strong JavaScript skills to deliver cutting-edge solutions. My expertise lies in front-end web development, where I have consistently delivered impactful results while collaborating seamlessly with managers and team members.

### SUMMARY OF QUALIFICATIONS

- 5+ years experience in development and programming
- Good understanding of Agile, Scrum, SDLC and Test-Driven Development methodologies.
- Proven ability to participate in rapid technical transformations with rapidly changing priorities.
- Capable of leading teams to ensure healthy software pipelines and participate in sprint reviews and daily scrum and stand-up meetings.
- Exceptional organisational, analytical, coordination and time-management skills to prioritise and effectively multi-task.
- Resourceful and flexible team player who thrives on relationship-building with colleagues and customers.
- Adaptable, self-motivated, reliable, punctual, and highly professional manner with a strong work ethic.
- Outstanding problem-solving skills with the ability to learn quickly and understand new business concepts and processes.

---

### TECHNICAL SKILLS

ReactJS	React Native	VueJS	JavaScript
CSS	HTML	NodeJS	Mocha/Chai/Jest
Figma	Storybook	Bootstrap	GIT

---

### WORK EXPERIENCE

Front End Developer 2022 – Present  
Memory Jar - Toronto, ON

- Collaborate closely and translate the founders' ideas into functional components in React Native.
- Converting Figma UX/UI designs into mobile app components (iOS/Android).
- Weekly meetings with founders and developers.
- Connecting Node.js back-end API endpoints to React Native app.

Front End Developer 2022  
New Idea Machine - Toronto, ON

- Add new features to applications and documentation.
- Translate Figma designs to web components.
- Collaborate with 10+ developers, designers, and project managers.
- Participating in weekly scrum meetings to ensure the project is progressing and barriers are noted and resolved.
- Schedule stand-up meetings with team members to review progress, clarify issues and resolve roadblocks.
- Clean up previous code from ES5 to ES6, change function props to deconstructed props and fix bugs and console errors.

## WORK EXPERIENCE CONTINUED

Front End Developer  
OjaBox - Dubai, UAE

2019

- Collaborate closely with the founder, product managers and designers to conceptualize new features with building the company website to create a new online platform that offers users the ability to create, share, purchase, and sell various 3D content and VR Assets for use within the augmented reality industry.
- Designed, developed, and launched the company website including a content library and 3D rendering tool using Three.js
- Added marketing analytics tools eg. Google analytics.

Key Achievements:

- Launched the OjaBox website.
- Stack: Reactjs, AWS, Nodejs, ThreeJs, Material UI, Bootstrap

Technical Project Manager  
360VUZ - Dubai, UAE

2016 – 2018

- Managed 2 remote mobile development teams in India and a web development team in Ukraine in the creation of the 360VUZ mobile application that broadcasts live concerts and events to the subscriber using the Oculus Gear VR
- Administered the project budget, tracked expenses, monitored performance, and ensured milestones were met
- Collaborated with the client to establish technical direction, introduce functions, and gain consensus on changes.

Key Achievement:

- Achieved the original launch deadline date by overcoming various technical issues without affecting performance and helped grow downloads from 50,000 in the first year to over 500,000 in year 2 by optimizing the functionality.

---
