Nader Nasr

Front End Developer

Toronto, Ontario | +1 (647) 510 - 9223 | nadernasr7@gmail.com | Github | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

As an accomplished React Developer, I bring a dynamic and versatile skill set to the table, with a proven track record of creating user-friendly web applications. With progressive experience within the technology industry, I have a demonstrated ability to stay up-to-date with the latest techniques while leveraging strong JavaScript skills to deliver cutting-edge solutions. My expertise lies in front-end web development, where I have consistently delivered impactful results while collaborating seamlessly with managers and senior developers.

SUMMARY OF QUALIFICATIONS

- 3+ years experience in development and programming
- Good understanding of Agile, Scrum, SDLC and Test-Driven Development methodologies.
- Proven ability to participate in rapid technical transformations with rapidly changing priorities.
- Exceptional organisational, analytical, coordination and time-management skills to prioritise and effectively multi-task.
- Resourceful and flexible team player who thrives on relationship-building with colleagues and customers.
- Adaptable, self-motivated, reliable, punctual, and highly professional manner with a strong work ethic.
- Outstanding problem-solving skills with the ability to learn quickly and understand new business concepts and processes.

WORK EXPERIENCE CONTINUED

Front End Developer   2019
OjaBox - Dubai, UAE

- Collaborate closely with the founder, product managers and designers to conceptualize new features with building the company website to create a new online platform that offers users the ability to create, share, purchase, and sell various 3D content and VR Assets for use within the augmented reality industry.
- Designed, developed, and launched the company website including a content library and 3D rendering tool using Three.js
- Added marketing analytics tools eg. Google analytics.

Key Achievements:

- Launched the OjaBox website.
- Stack: Reactjs, AWS, NodeJs, ThreeJs, Material UI, Bootstrap

Technical Project Manager   2016 – 2018
360VUZ - Dubai, UAE

- Managed 2 remote mobile development teams in India and a web development team in Ukraine in the creation of the 360VUZ mobile application that broadcasts live concerts and events to the subscriber using the Oculus Gear VR
- Administered the project budget, tracked expenses, monitoring performance, and ensure milestones were met
- Collaborated with the client to establish technical direction, introduce functions, and gain consensus on changes.

Key Achievement:

- Achieved the original launch deadline date by overcoming various technical issues without affecting performance and helped grow downloads from 50,000 in the first year to over 500,000 in year 2 by optimising the functionality.
